QP Automation
a Quad Plus Company

QP Automation provides Industrial Automation Solutions. These solutions will increase profitablility and efficiency. Our skilled engineering team is certified in Industrial Software, Drives, Motion Control, Automation (PLC & IO, HMI, SCADA), Networking and Electrical Control. The focus of QP Automation is for our customers to achieve their complete Industrial Automation and Power solutions.

EM ENERGY SOLUTIONS

Transients, voltage & current balancing, harmonics, dips/swells, ride through

- Carbon Footprint Reduction
- Increased Energy Efficiency
- Less Downtime

VeeArc

Variable Frequency Drive Repair

- Drive Repair & Support
- Siemens Northern Regional Repair Center
- Legacy Controls

Sentinel Machine Safety

Industrial Machine Safety Consulting

- Risk Assessment
- Risk Mitigation
- Safety Validation

Quad Plus®

Your Engineering & Technology Partner

- Control Engineering Services
- Industrial Safety
- Commissioning
- System Integration
- Repair & Field Services

Cooper & Associates

Power Studies & Structural Engineering

- Industrial Engineering Services
- Technical Services
- Project Coordination
- Remediation & Assessment Services
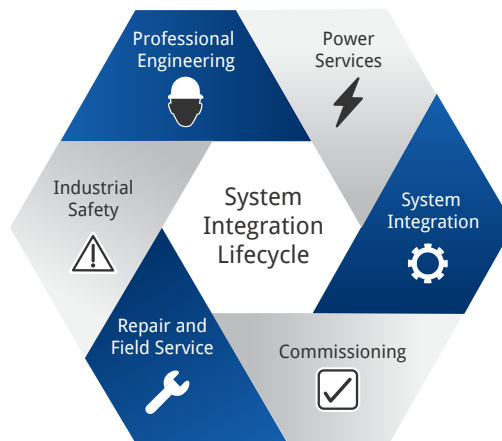

QP Gauging

Computerized Measurement & Control During Production

- Gauging Systems
- Custom Frames
- Advance Sensor Technology
- Software & Reporting
- Premium Installation & Support

QP Testing

Power Systems Field Service

- NETA Accredited Technicians
- Acceptance Testing
- Commissioning
- Maintenance Testing

System Integration Lifecycle

- Professional Engineering
- Power Services
- System Integration
- Commissioning
- Repair and Field Service
- Industrial Safety

QP Breakers

Industrial Circuit Breakers

- Inspection and Evaluation Services
- Repair
- Recondition
- Retrofit
